MACROPHAGES AND FIBROBLASTS:

KEY REGULATORS IN WOUND HEALING, FIBROSIS AND THE FOREIGN BODY REACTION

Diana Tessa Annegreet Ploeger

2017

The research in this thesis was performed at the Graduate School of Medical Sciences (GSMS) at the University of Groningen.

This Ph.D project was financially supported by:
The Netherlands Institute for Regenerative Medicine (NIRM)
Dutch Kidney Foundation
Stichting de Cock-Hadders

MACROPHAGES AND FIBROBLASTS: KEY REGULATORS IN WOUND HEALING, FIBROSIS AND THE FOREIGN BODY REACTION

Ploeger, D.T.A.

Proefschrift Groningen

ISBN (printed): 978-90-367-9687-3

ISBN (digital): 978-90-367-9686-6

Cover design: Diana Ploeger

Lay-out: Diana Ploeger & Bram Piersma

Printed by: Ipskamp printing

Printing of this thesis was kindly supported by:

MACROPHAGES AND FIBROBLASTS

key regulators in wound healing, fibrosis and the foreign body reaction

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr E. Sterken
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op
woensdag 19 april 2017 om 12:45 uur

door

Diana Tessa Annegreet Ploeger

geboren op 25 februari 1982
te Veendam

CONTENTS

CHAPTER 1	
Introduction and aim of this thesis	9
CHAPTER 2	
Cell plasticity in wound healing: paracrine factors of M1/M2 polarized macrophages influence the phenotypical state of dermal fibroblasts	27
CHAPTER 3	
Human macrophages primed with angiogenic factors show dynamic plasticity, irrespective of extracellular matrix components	55
CHAPTER 4	
Macrophage phenotypes in the collagen-induced foreign body reaction in rats	73
CHAPTER 5	
3,4-Dihydroxy-L-phenylalanine as a novel covalent linker of extracellular matrix proteins to polyacrylamide hydrogels with a tunable stiffness	93
CHAPTER 6	
Polarization of human macrophages into M1 and M2 phenotypes is stiffness independent	113
CHAPTER 7	
Fusion of macrophages: Formation of foreign body giant cells is stiffness dependent, irrespective of IL4/IL13 stimulation	131
CHAPTER 8	
General discussion and future perspectives	151
CHAPTER 9	
Nederlandse samenvatting voor niet ingewijden	161
APPENDICES
